

WEB OFFSET PRESS OPERATOR

Metro Label Company Ltd., one of North America's leading label companies and a proven environmental leader, with locations in Toronto, Montreal, Vancouver and Napa, is seeking an experienced Web Offset Press Operator with working knowledge of a Muller Martini Alprinta Web Offset Press OR any heat set web offset press in the packaging industry.

The successful candidates must:

- be a high school graduate and possess a certificate or diploma in print technology
- be fluent with reading and writing English
- have good oral and written communication, interpersonal, administrative, and problem solving skills
- be a team player
- have a minimum of five (5) years operating a web offset press (preferably a Muller Martini) in the flexible packaging industry and expertise with printing on various substrates ranging from paper to film.
- have experience monitoring press run for quality using computer control console
- have experience printing with UV curing inks and varnishes
- have the ability to distinguish between colours and confident using quality control equipment such as a densitometer
- be able to work days, afternoons, and weekends
- be able to stand for long periods at a time
- be able to lift 50lbs

Past experience printing shrink sleeves and in-mould packaging is a definite asset.
