

Packaging For Printers is a quarterly digital magazine that focuses on the growth in all packaging sectors from labels and flexible applications to rigid plastics and paperboard.

Published by *PrintAction* and designed for Canada's commercial printer community, this online resource will cover the full spectrum of printing processes from flexography and gravure to digital and offset lithography production, as well as structural and graphic design, prepress and postpress services in the world of package printing.

For more information on the the magazine's editorial opportunities, please contact Alyssa Dalton, editor
adalton@annexbusinessmedia.com
